Science Is Not Yet Everything

The Wind, the Sun and the Rain

Local followers of "The Reader's Digest," which supposedly has the largest circulation of any publication in America, tell me they are impressed by an article in the current issue describing the "thousand scientists behind Hitler." I am the first to give the Germans due credit for hard work and absolute accuracy in scientific endeavors, in some lines of which they have always led the world—but I warn any reader against supposing that accuracy in science is the final determining factor in the successful rule of people.

For science is useless only in the world of things—the reaction of a given mind to a given acid, for instance, is a known quantity. And on the known quantities of things science can predicate an astonishing empire.

But it is an empire that falls short of success when applied to people. For people are an unknown quantity.

They are an unknown quantity because nature itself is an unknown quantity.

A scientist may know the total

Vincent Foster President of Junior Chamber

Pilkinton, Feild, V.
Pres.; Ray Cumbe
Secretary; Lamar
Cox Treasurer

Hope's newly-organized Junior Chamber of Commerce elected the following officers Wednesday night in the circuit court room of the Hempstead county courthouse:

Vincent Foster, president
State Senator James H. Pilkinton, first vice-president
Rep. Talbot Feild, Jr., second vice-president
Ray Cumbe, secretary
Lamar Cox, treasurer
Directors: Cecil Dennis, Max Walker, George W. Robinson, Lyman Armstrong, Herbert Burns, Dewey Bahor, Rep. Royce Weisenberger and Howard Houston.

The eight directors will meet later and draw lots, four to serve one year and four to serve two years.

The Junior Chamber of Commerce will hold its membership meeting every second Tuesday in the month, the next regular meeting date being June 10.

The election meeting was called to order at 7:30 p. m. by Lamar Cox, temporary chairman, with Vincent Foster as temporary treasurer. They reported that the organization, which started last week with 52 charter members, now has an enrollment of 107.

Associate Members
High-light of the election meeting was a flurried debate between Senator Pilkinton and Max Walker over the question whether the Hope organization should adhere rigidly to the national constitution of Junior Chamber of Commerce regarding age limits for membership.

Senator Pilkinton, pointing out that the constitution and by-laws set forth that persons between the ages of 21 and 35, inclusive, shall be regular members while persons from 36 through 39 may be associate members

CRANIUM CRACKERS

Across the Plate

With a swing and a crack as ball meets bat the nation is getting into the baseball spirit. The season is entering its second month, so better up, and try to score a home run on these questions about the great American game.

1. How many outs were there in a nine-inning game won by the home team?

2. If a team plays 10 nine-inning games, five at home and five away, and wins all of them, how many innings was it up to bat?

3. What was the town of Milledale to do with baseball?

4. What teams played in the world series of 1939 and 1940, and who were winners?

5. What former baseball player holds the most consecutive games record?

14,000 Aerial Troops Flown in by Germans

British Claim
Efforts to Send
Tanks by Ship
Are Checked

LONDON —(P)— British fighting planes on Crete were withdrawn after the German paratrooper and air-borne troop attack started because of the pronounced disadvantage under which our fighters were operating," it was authoritatively disclosed Thursday.

"To do otherwise would have been a waste of the air forces involved," said a statement, which warned against considering an invasion of Crete analogous to what Britain might expect.

"The distance of Crete from our airdromes in Egypt is such as to preclude any possibility of strong air support by the RAF from our bases there," the statement said.

The defense operation at Crete, it said, must be regarded as one in which, on our side, naval land forces primarily are employed. Offensive air operations are, however, being carried out by our bomber units in Egypt against airdromes from which the enemy are operating in their attacks on Crete.

By the Associated Press
Dropping out of the sky by thousands Hitler's aerial invaders seized the old capital of Crete Thursday and gained another foothold in the Suda bay region—site of a big British naval base—but British warships smashed attempts to land sea-borne troops on the island.

With the three-day-old battle mounting in violence, Churchill acknowledged Nazi paratrooper troops had invaded the town of Candia in central Crete, the old-time capital.

British Middle East headquarters in Cairo coincidentally reported the German "sky troops" had gained a temporary foothold in the Malemi sector 15 miles south of Canea, the Crete capital.

"The fighting is continuing with intensity," Churchill said. "The Germans are using large numbers of paratroopers and these are being increased daily."

Churchill Admission
The Prime minister said that "although the situation is in hand the Germans have gained some local successes at heavy cost."

He announced that the Germans began "very much larger attempts at naval landings Thursday and that a convoy of 30 German ships en route to Crete was sighted Thursday morning" and "presumably was attacked, although my information stops at that point."

In the heightening three-day-old battle the British said two German transports and a number of Greek boats headed for the British-occupied island.

Business School to Locate Here, One of Largest

Perry Business
Schools, Brunswick,
Ga., to Open
Hope Branch

Miss Marguerite Brumley, of Brunswick, Georgia, representing the nationally known and what is said to be the largest business school organization in the United States, the Perry Business Schools, will speak to the Rotary club at its regular meeting Friday of this week.

Miss Brumley is field superintendent for this organization and after surveying towns and cities in Louisiana and Arkansas, has selected Hope to locate a branch of this institution.

The Chamber of Commerce has on file letters from several towns where these schools are located, all of which speak of them in the highest terms.

Well Recommended
Hope Star has received the following letter from the Brunswick (Ga.) Board of Trade:

"We have been informed that the Perry Business Schools of Brunswick, Georgia, anticipates opening another term of school in Hope, and we take this occasion to write and tell you that you will find this institution quite an asset to the business interests of your community."

"Several years ago our Board of Trade induced the owner of this school to establish in our city and after very closely observing the work done and results obtained, we take great pleasure in recommending the school to you."

"You will find the management absolutely reliable and dependable. Mr. Perry is one of our most highly respected citizens, a very active man in all civic matters, past President of the Brunswick Rotary Club, and has always been affiliated with any forward movement in this part of the state."

"It is a great pleasure for me, as Secretary of the Board of Trade, to commend him and his work to you and your people."

City Baseball League Planned

All Interested
Persons to Meet
Monday Night

There will be a meeting at the city hall Monday night, May 26, at 7:30 p. m. to discuss plans to organize a City League of four or more baseball teams in Hope.

All those who are interested are invited to attend this meeting and see what can be done to furnish this type of sport to the people of Hope.

J. C. McCall, of Little Rock, formerly with the Chicago White Sox, who has for several years conducted a baseball school in Little Rock, and W. A. L. McDonald, also a former big league player, will attend the meeting.

Poppy Day Proclamation Issued by Mayor Graves

Saturday, May 24, was proclaimed as Poppy Day in Hope, Arkansas, in a proclamation issued today by Mayor Albert Graves. The Mayor called upon all citizens to observe the day by wearing the memorial poppy of The American Legion and Auxiliary.

The proclamation stated: "Whereas, the wearing of the memorial poppy is a fitting and effective way of keeping bright the memory of those young men who gave their lives in America's service in the World war, and

"Whereas, the men of Hope served gallantly in that war, some being called upon to sacrifice their lives in that service, and

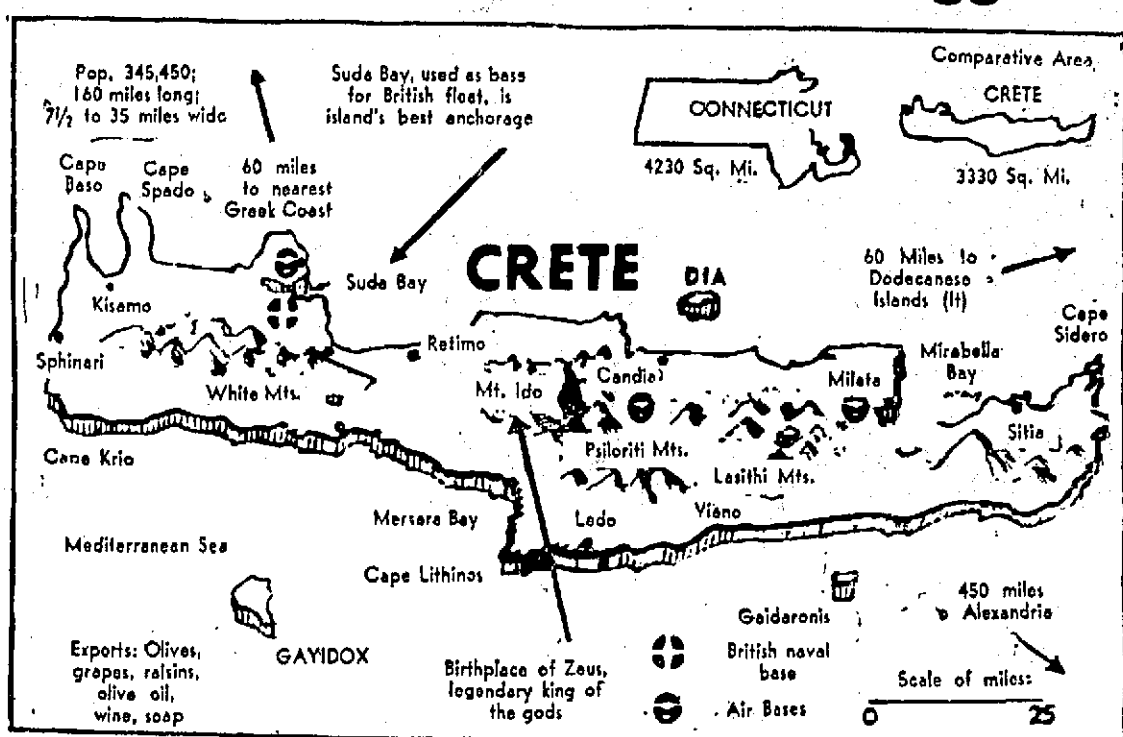

"Whereas, the present national emergency requires the same type of unselfish patriotism displayed by the men and symbolized by their memorial flower, and

"Whereas, the women of the American Legion Auxiliary will distribute veteran-made memorial poppies throughout the city on Saturday, May 24.

"Now, therefore, I, Albert Graves, Mayor of the City of Hope, Ark., do proclaim, Saturday, May 24, to be Poppy Day in the City of Hope, and urge all citizens to observe the day by wearing the memorial poppy of The American Legion and American Legion Auxiliary in honor of the men who died for America in the war of 1917 and 1918."

Albert Graves, Mayor

Scene of British 'Life-Line' Struggle

This detailed map shows size of Crete, its shape and the type of terrain over which Nazi air-borne troops would have to fight their way upon landing in the face of stiff British and Greek resistance.

Commencement Sermon Sunday

Rev. Hamilton to
Deliver Address
at Saenger

The Hope high school will open its Graduating Exercise next Sunday at the Saenger Theater with the Commencement Sermon.

Services will start at 11:15 o'clock and the sermon will be preached by the Rev. W. R. Hamilton, pastor of the First Baptist Church of Hope.

This year's class numbers 75 and will be accompanied Sunday by the Junior class, which numbers 86.

The churches of the entire city have been invited to join in the services. The program follows: Processional, Invocation, Hymn, Scripture Reading, Solo, Announcements, Offertory, Anthems, Sermon, Star Spangled Banner, Benediction, Recessional.

Cotton Week Is Observed

Local Stores
Prepare Attractive
Displays

Cotton Week is being observed by the merchants in Hope. Nearly all the dry-goods stores have attractive windows and all of them have posters. Special mention should be made of the splendid windows at Robinson's, Scott's and the very unusual window at the Ladies' Specialty Shop.

The Kiwanis Club had a special Cotton Week Program Tuesday and the Chamber of Commerce distributed 200 cotton streamers to all merchants who would use them.

Embassies in Paris to Close

Germans Ask
Countries to Move
Envoys to Vichy

BERLIN —(P)— All nations have been asked to close both their embassies and legations in Paris, the Germans announced Thursday, describing the request as not directed at any particular country but designed to bring the embassies together at Vichy.

"Vichy is the present capital of France and that is where diplomatic representatives belong," a spokesman said.

There is no objection to any nation having diplomatic relations with Germany to have consulates in Paris, he added, however.

Canned Melon Juice Sought

New Industry Seen
in Inquiry From
Philadelphia

There is in prospect a new industry for Hope. Canned watermelon juice is in demand, according to Gimble Bros. of Philadelphia, Penn.

The Chamber of Commerce received several days ago a letter from this store stating that they are having calls every week for canned watermelon juice.

The chamber wrote them at once that it knew of no such product on the market, but if there is a demand for it, local people would experiment on canning this product and report later. The letter also explained that Hope is famous for both the size and quality of its melons and that the largest melon in the world weighing 105 pounds was raised here.

If watermelon juice can be canned and a market found for it, the other parts of the melon can also be made into other canned products, such as citron, pickles and preserves. This should make the watermelon a much more profitable crop.

State Upheld in Rail Fight

Missouri Pacific
to Pay Over Million
in Texas

LITTLE ROCK — Lawyers for the Missouri Pacific Lines have notified Attorney General Jack Holt and Lefel Gentry, Revenue Department attorney, that the recent United States Supreme Court decision upholding the state in a dispute over the railroad's Cotton Week Program Tuesday and the Chamber of Commerce distributed 200 cotton streamers to all merchants who would use them.

Mr. Gentry estimated that the Missouri Pacific owed the state \$1,264,267, representing difference between the amount of taxes tendered for 1938-40 assessments, and the amount which the state claimed.

The balance will be paid as soon as a claim is filed in federal bankruptcy court at St. Louis. Mr. Gentry, who handled the litigation while he was assistant attorney general, said that action will be taken "immediately."

A formal bankruptcy court order permitting payment of the claim will be necessary.

Clinic For Women
COLUMBUS, O.—For the third year, a sports clinic for women teachers of physical education will be held at Ohio State University, June 26-July 10.

A Thought

As soon as I have begun to fear I have ceased to fear. —Schiller.

But shun profane and vain babblings: for they will increase unto more ungodliness.—1 Timothy 2:16.

Eden's Warning Is 'Undeclared War' on Empire

Britain Evacuates
Civilians, 'Clear-
ing the Deck,'

LONDON —(P)— Foreign Secretary Anthony Eden warned the Vichy government Thursday Britain will strike "the enemy wherever he may be found," and some qualified sources immediately took that to mean "an undeclared state of war" against France.

Even though members pressed him Eden scrupulously avoided further interpretation of his statement to the House of Commons.

British Prepare Gibraltar

LALINEA, Spain, facing Gibraltar —(P)— Enforced removal of British civilian subjects and foreigners in Britain's clearing of Gibraltar's decks actually began Thursday afternoon when about 800 persons boarded a liner and were escorted away by a cruiser, two destroyers and two submarines.

British Seize French Tanker
LONDON —(P)— British naval patrols have intercepted the 13,467-ton French tanker Sheherazade en route to French North Africa with an oil cargo from the U. S., it was made known Thursday, and it was understood this was done with the full consent of Washington.

The ship was in the Atlantic bound for Casablanca, French Morocco. British authorities granted the ship a navicert "some time ago" to carry the cargo, it was stated, but "actions of the last day or so by the Vichy government, particularly in Syria, had a very sharpening effect, not only in London but in Washington."

Allege U. S. Threat
VICHY —(P)— Reports given publicity in German-occupied Paris said Thursday that defense forces in the French Caribbean island of Martinique had received orders to prepare for an American attack.

The newspaper Le Matin, published in Paris, said Wednesday that defense forces of Martinique would be centered around the fortress holding gold reserves of the Bank of France, and that its defenders would blow up the stronghold as a last resort.

Martinique's defense works are being strengthened, the newspaper said. Advances were said to have reached Paris from the island capital, Fort de France, quoting the French naval command in the Caribbean as declaring that the aircraft carrier Bearn and the cruiser Emile Bertin would remain in the Antilles.

Any movements of these ships simply are movements of the commanding admiral was reported to have said, and no arrangements have been made for them to leave.

(Both warships recently have engaged in maneuvers, ostensibly to keep up the morale of the crews.)

The Paris press said British warships were maintaining a patrol off Martinique.

Hull Denies U. S. Action
WASHINGTON —(P)— Secretary Hull gave assurance Thursday that Martinique had no reason to fear any imminent U. S. action against the island.

The Secretary of State described as "German" and "pro-German," reports published in France that caused

Stimson Hits Neutrality Act

Says Its Violation
of Traditional
Sea Freedom

WASHINGTON —(P)— Secretary Stimson assailed the neutrality act Thursday as "a violation of our most sacred and important tradition of foreign policy—freedom of the seas."

Like Secretary of the Navy Knox who Wednesday termed the act "barbaric," Stimson stressed he was speaking as an individual rather than as Secretary of War.

Stimson added, however, that what he described as a conflict between the neutrality considered," however, in delivering munitions to Great Britain.

"It's for others to decide whether repeal of the act is an urgent matter now," he told a press conference.

Noting that he had opposed the principle of neutrality legislation for years, Stimson said "I always prophesied it would bring us trouble."

600 Hempstead 4-H Members to Visit Station

To Study Research Conducted by the College of Agriculture

Six hundred Hempstead county 4-H club boys and girls are expected to visit the University of Arkansas College of Agriculture's Fruit and Truck Branch Experiment Station, near Hope on Wednesday, May 28th, Mary Claude Fletcher and Oliver L. Adams, county extension agents, announced today.

The occasion is the annual 4-H club study days, May 28 to 30, which the College conducts to give 4-H club members an opportunity to study the research being conducted by the College of Agriculture.

Beginning at 9:30 o'clock, the club members, under the direction of W. J. Jernigan, state club agent, will walk through the branch station grounds to view demonstrations in farm and home conveniences, improving the home grounds, and weather recording and its use to farmers.

Then the club members will tour the branch station farm to study demonstrations in pasture management, soil erosion, farm timberland, vegetable crops, field crops, and orchard management.

After the noon-hour dinner, June Donahue, extension specialist in community activities will conduct group singing and games. G. W. Ware, as-

stant director in charge of the branch station, will discuss the experiment station program, and Dr. Jernigan will speak on the 'Progress made in 4-H club work.'

The afternoon program will be concluded with a talent audition, in which individuals and groups will compete. The highest ranking individuals and groups will be eligible to compete for state honors at the annual state 4-H camp, which is held on the College campus at Fayetteville in August.

At rally day exercises at the recreation center of the Experiment Station Saturday, May 28, 24 boys and girls will be selected to compete for the state camp trip offered.

Sweet Home

W. E. Sherrill filled his regular appointment here Sunday.

Mr. and Mrs. M. H. Montgomery attended the funeral of Mrs. Henry Britt at Boughton Sunday afternoon.

Miss Virgie Lee Smith was the Sunday guest of Miss Mildred Purdie in Prescott.

William McDougald and Hayden Harris of Camp Robinson spent the week-end here with relatives and friends.

Several from here enjoyed the home coming at Nubbin Hill Sunday.

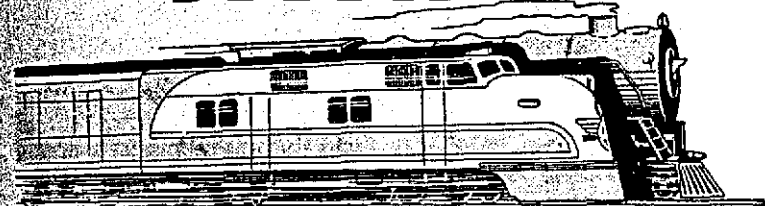

Mrs. Mollie Wilson spent several days at State Sanatorium with her children last week. She was accompanied by her daughter Mrs. Horace Jones of Prescott.

Miss Dorothy Jean Ward was the Tuesday night guest of Miss Virgie Lee Smith.

Large Brains

Largest brain ever reported by Mexican physicians was that of Leon Trotsky, which weighed 3 1/2 pounds. Largest ever recorded in medical history was that of a Russian novelist, Ivan Turgenev, which weighed 4 pounds, 10 ounces.

Mercury in the Diet

By HOWARD W. BLAKESLEE
Associated Press Science Editor
CHICAGO — Everybody eats a little mercury every day.

Nearly all common foods contain it, scientists at the University of Tennessee have learned, although as a rule that quantity is far too small to cause trouble. Its source probably is the soil where plants grow.

Mercury was found even in the tissues of newborn babies. The skin, the Tennesseeans discovered, is one of human organs excreting it.

The study was made by O. S. Gibbs, H. Pond and G. A. Hansmann, because of reports that mercury in insecticides might be harmful. They concluded that danger from poisoning through insoluble mercury compounds has been over-estimated.

Harrison in Hollywood

By PAUL HARRISON, NEA Service Correspondent

Alabam' Grid Star Kicks Goal as Horse Opera Hero

Lucie Neville is pinch-hitting for Paul Harrison, now touring army camps and defense industries.

By LUCIE NEVILLE
NEA Service Staff Correspondent

HOLLYWOOD — Movie-town is full of handsome gents and beautiful gals whose current fame and fan acclaim represent Algebric triumphs over earlier struggles and adversity. So it's time somebody told the story of Johnny Mack Brown—a man who has been a hero all his life.

As a routine-lootin' western star known wherever American films are shown, he's scarcely more of a celebrity than when he used to tote a football for the University of Alabama. His prominence, however, began long before he went to college, although it was confined mostly to his home town of Dothan, Ala.

In primary school he was the handsome, quiet youngster who polished off the bullies, made good grades, and captained all the teams. During his last two years of high school, he was a lion of the gridiron even among the adult population. Football scouts from big-time colleges began drifting into Dothan to offer Mrs. Brown's tall, black-haired boy an athletic and, incidentally, academic career. Johnny Mack was acclaimed by

all Alabama when he chose its university.

His Lucky Day
And so he worked his way by clerking in a shoe store and became a campus idol and pikskin star, but all that was nothing until an afternoon in the middle of his senior year—Jan. 1, 1926, Alabama had been asked to play the University of Washington in the Rose Bowl, but was so

highly regarded that sports writers accused Washington of picking a weak opponent.

At the end of the first half, it was 12-0 for Washington. Then Alabama got mad, made three touchdowns (two by Johnny Mack Brown), won the game 20-12, and was established in the national sports spotlight. Back home, it was regarded as the biggest thing since Bull Run.

Young Mr. Brown coached at the university next year, and returned to California with the team that tied Stanford. More fuss was made over him than the actual team. Before he knew what was going on, Metro had snagged him for a test, signed him to a contract and began casting him as a drawing-room hero.

With a shy, drawing manner and

the physique of a truck driver, Johnny declared right along that he wasn't an actor and certainly not the type of smoothie for white-lies and tails. His fan mail grew so amazingly, however, that he played leading roles opposite stars such as John Crawford, Greta Garbo, Norma Shearer, Mary Pickford and Marion Davies.

After a while, though, his bosses began to wonder if maybe Johnny had been right after all. In 1930 he starred in his first western and obviously it was closer to his type. The next four years marked the only real slump in Brown's career; but of a dozen pictures made at various studios three were westerns and he liked 'em. His audiences changed but they grew, and as Universal's star in the 'popularly derby, Brown is

riding hard on the heels of Gene Autry and Bill Boyd.

An important thing about him is that he really can ride and rope and shoot. He bought a ranch and horses and deliberately learned those things.

Oh, yes—as part of the hero pattern—after college, Johnny Mack Brown married a campus belle named Cornelia Foster, whose father was president of the university's board of trustees. They've got three children now, live quietly in a house full of elegant antiques. They take no part in typical Hollywood night life and haven't even been to Ciro's.

The World's News as Told in Pictures

TUNING UP FOR DEMOCRACY'S DEFENSE

Black night, roaring engines and the gleam of new metal in the glare of floodlights—a striking camera study of round-the-clock production by the aviation industry for the U. S. Army and Great Britain. The Aeronautical Chamber of Commerce presents this view of a four-engine Boeing Flying Fortress, one of the ships being flown across the Atlantic for delivery to the Royal Air Force. Twelve-hundred horsepower Wright Cyclones, just out of their shipping crates, are being "run in" on the night shift at the Boeing factory in Seattle, preparatory to flight testing of the bomber the next day.

Four-phase plan shown on map is believed by London sources to be Hitler's new strategy for conquering the British Isles. Contrary to Nazi plans of September, 1940, direct invasion is now last on the list, to be tried only after other points of Britain's resistance have been overcome.

Year of the Big Blow

Hollywood would have you believing Paulette Goddard stands before that giant fan to cool off. But us wise guys know it's a gag to show off Paulette's figger, which is okay, too.

Mud in His Eye

Glory of battle for this German soldier apparently ended in a swamp. Nazi caption said he was preparing for offensives.

Abandoned in France

The fate of France is written on the forlorn faces of these two French children, cast aside by their mother because her husband lies in a Nazi prison camp and she cannot feed them. These girls and hundreds like them found refuge in a Toulouse charity home.

Captain Jimmy Climbs in China

Capt. James Roosevelt of the U. S. Marines and eldest son of the President climbs the 382 steps from Chungking airport to streets of Chinese capital. He stopped en route to Egypt on secret military mission.

Tank Toppled to Make New Tanks

Tanks like this aren't as useful to national defense as the kind that hold guns, not water. So down it topples at Muskegon, Mich., to be melted up for scrap metal, probably to build new army tanks.

Keeps Spotlight

Displaying political showmanship that amazes wisecracks, Wendell Willkie continues to hold stage in national and world scene despite defeat and subsequent defection in Republican party. This striking character shot shows him in Canada.

Washington Week-End Hotel

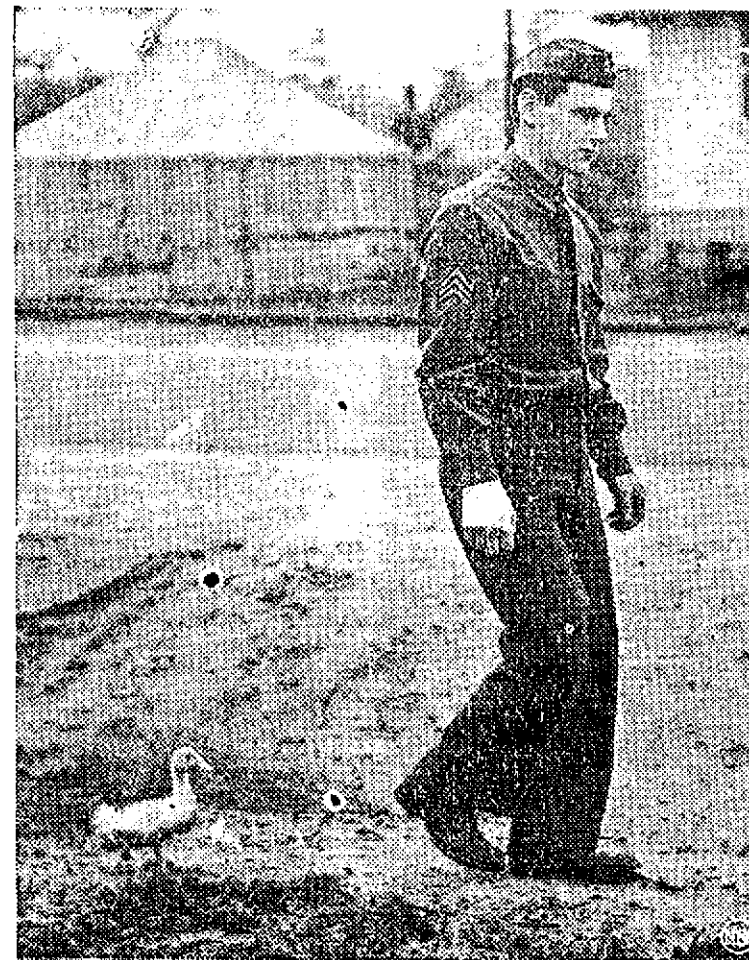

Soldiers in Washington from nearby camps for the week-end may sleep in these tents at 50 cents a head. Tents put up near Jefferson Memorial, background, are just one more example of capital's housing shortage.

'All Out' Defense

After Paul C. Boyen passed his physical examination for the draft he went to his own dentist in Albany, N. Y. Dentist, says Paul, advised yanking all Paul's teeth, did so. While state selective service officials investigate, Paul tries to chew a sandwich.

Hay Foot! Straw Foot!

Duck keeps in step with Sergt. Stanley Tarrant as they march through Camp Stewart, Ga., where fowl is everybody's pet, has free run of the place and enjoys following sergeants.

Joe Stalin Won't Like This One Bit

This Bethlehem Steel striker is slightly confused. Russia's Stalin has his OGPU secret police, but Hitler calls his the GESTAPO.

Boss Stalin and Assistants

Here is the first picture of Josef Stalin, center, to arrive in America since Stalin appointed himself premier of Russia, taking that title from Foreign Minister V. M. Molotov, left. Marching with them to Moscow's Red Square for May Day parade is Defense Commissar K. E. Voroshilov.

'Pay Me, Adolf'

Matud Odehmal, Brownsville, Ore., farmer, says Adolf Hitler borrowed a krona, about 20 cents, from him when they were both youths in Austria and never repaid it. Matud would like to collect.

This Is the Fabulous Magda

Latest picture of Magda Lupescu, taken in Bermuda where she and former King Carol fled, shows a slimmer and less gay woman than most earlier European photos of this famous principal of a Balkan story book romance.

CCC Boys Get Special Work Instruction Courses Are Offered to Alton Boys

More than 300 young men have received special instructions and on-the-job experience in specialized types of work, such as truck driving, mapping, surveying, auto mechanics, welding and drafting, at the Soil Conservation Service CCC Camp at Hope, Ark., since July 22, 1935 when it was established, R. C. Ellen, camp superintendent, reported Thursday.

While much of the experience gained by these young men is of value in the immediate defense program, R. C. Ellen said, "a large number of them came from farms and on their return will take with them the ability to apply conservation practices to the land."

In addition to the general background in soil conservation principles, he continued, the training in the operation of and care of automotive equipment and in rudimentary surveying and mapping gives these enrollees the foundation for the establishment for sound conservation and land use programs.

"Another thing that will prove valuable to these enrollees in later life is the painstaking training and safety measures which all of the enrollees receive, and in which the leaders and truck-drivers are given special instruction," the superintendent said.

There are approximately 64 enrollees receiving training as field leaders, truck drivers, tractor operators, mechanic helpers, blacksmiths, tool clerks, blade and grade operators, welders, automotive service men, clerks, typists, drafting, surveyors helpers, etc.)

Besides receiving this specialized training the enrollees have assisted 229 farmers in the establishment of complete and coordinated soil conservation practices on 44,947 acres co-operating with the camp and 1130 farmers on 154,810 acres co-operating with the Terre Rouge-Bordeaux Soil Conservation District. This work, the camp superintendent declared, will be of permanent benefit to this community.

Vincent Foster

able to vote but prohibited from holding office, advocated that the associate membership be extended to "any person 35 or older."

Mr. Walker expressed violent opposition, drawing laughter with this quip:

"If we do what Pilkinton suggests we ought to just break down and change the name of our organization from 'Junior Chamber of Commerce' to 'Assistant Chamber of Commerce'."

Pilkinton Upheld

Nevertheless the membership voted overwhelmingly for Senator Pilkinton's motion—and persons 35 or older

er may be associate members, eligible to vote, but ineligible to hold office.

The constitution and by-laws were read by Representative Feild and adopted, including the age revision as suggested by Pilkinton.

Lyman Armstrong proposed that Hope Junior Chamber of Commerce be incorporated as a non-profit corporation, a position supported by George W. Robison. After consultation with Mayor Albert Graves and Senator Pilkinton, as attorneys, the organization voted to instruct Representative Feild and Max Walker to proceed with articles of incorporation.

Fears Allies Losing Atlantic Army Leader Fears Collapse of British Empire

SHANGHAI —(AP)— Rear Admiral William Glassford, commander of the U. S. Yangtze naval patrol declared Thursday night that the battle of the Atlantic "at this moment is being lost by the Allies."

"We are not only facing inevitable defeat of England and collapse of the British empire but also defeat of the U. S. unless something is done," he added.

Glassford told an audience of Chinese and American business men here that something must be done "to stop the sinking of Allied ships in the Atlantic which are going on faster than they can be replaced."

"Once again," he declared, "it is the United States' job to save England."

"This means ships.

"Once again we are asked to build a colossal merchant marine to carry war supplies to England. We shall do it. But it is not evident soon this will not be enough. These ships must get safely across the Atlantic."

Referring to the possibility of convoys, the admiral said, "This is the one real and deadly effective solution. But just how we are to insure safe passage of the Atlantic remains to be seen."

Replacements at University Dr. A. M. Hardin May Succeed President Fulbright

LITTLE ROCK — Developments in the University of Arkansas personnel situation disclosed Wednesday included:

A motion to remove President J. W. Fulbright to elect Dr. A. M. Hardin, general extension director, to the presidency was offered, seconded for debate purposes, withdrawn and not recorded in the minutes, at the Board of Trustees meeting here last Saturday.

The board is expected to remove Dean Stuart P. Cromer of the Medical School, who probably will be replaced by Dr. Byron Lewis Robinson, professor of anatomy and faculty member since 1925.

Removal of Dr. W. R. Horlacher as dean of the College of Agriculture appears certain. Dean Horlacher, it was reported, will be offered a position in the Division of Research.

Horace E. Thompson, assistant director of the Extension Service of the College of Agriculture, is scheduled to be retained.

It was reported that the board considered the possibility of retaining President Fulbright if his mother, Mrs. Roberta Fulbright, publisher of the Northwest Arkansas Times at Fayetteville, would retire from the newspaper business, but this was flatly denied by most of the trustees. The others said they had no knowledge of such a suggested compromise.

In response to an inquiry as to whether there were charges against President Fulbright, a trustee was reported to have said "there is a lot of dissatisfaction and talk, especially about the newspaper at Fayetteville." He denied making the statement.

Following Governor Adkins' nomination over Carl E. Bailey, in the August 13 primary last year, the Fayetteville paper commented that Arkansas voters apparently favored a "hand-shaker" over a man who had accomplished things.

On Tuesday of last week, the same paper predicted that Mr. Fulbright would be removed as president.

Eden's Warning

(Continued from Page One)

ed officials on the island to prepare for an American attack.

"There has been a recent development on the Caribbean island to change the situation and no immediate concern is felt here," Hull said.

"The U. S. has observers on the island who keep the government informed on all developments," he said.

British Warn France
LONDON (AP)— Britain warned the Vichy government Thursday if France pursues her "declared policy of collaboration" with Germany, British forces will strike "the enemy wherever he may be found" without "any distinction between occupied and unoccupied territory."

In advising the House of Commons of possible war action against any part of the expansive French empire, Foreign Secretary Eden said the Vichy government had "embarked on a course which must place the resources and territories of France increasingly at the disposal" of Germany.

The British government is confident, Eden said, that the French people themselves look upon this policy as "incompatible" with honor.

(Forces of Gen. Charles De Gaulle, still fighting on the British side, were reported unofficially to have crossed from British-mandated Palestine into French-mandated Syria where the Germans already have established a foothold.)

ANN ARBOR—Neil Macintyre, University of Michigan sophomore hurdler, has been ordered to Camp Roberts, Calif., May 29. He is second lieutenant in the National Guard.

ed island were sunk by British warships.

Empire headquarters at Cairo said losses among Nazi "chute and air-borne troops" were even heavier than before. German gains were described as only isolated successes.

14,000 Nazis by Air
The British radio said the Germans might now be drawing on a second air-borne division—making 14,000 Nazi air troops involved in the momentous struggle—and admitted the possibility also that the Germans might be attempting to land tanks from boats.

Recounting Wednesday's action the communique declared:

British and New Zealand forces assisted by Greeks and Cretans all rendered a magnificent account of themselves, fighting with splendid courage and dash. Our empire forces with their gallant allies delivered three successful counter-attacks."

In Berlin a Nazi spokesman challenged British reports of big German losses in the conflict, declaring:

"We will tell the whole story soon and the world then may judge what actually was accomplished in the region of the Mediterranean."

Cairo dispatches said 1,000 Nazis were killed or captured in the first day's fighting.

Vacation for Kroger Men 16,000 Employees to Get Vacation With Pay

Nearly 16,000 employees of the Kroger company will receive vacations with pay this year, C. E. Houston, Little Rock branch manager in charge of Kroger stores in this area, announced Thursday.

This number includes approximately 280 employees of the grocery concern's Little Rock branch who are eligible for from one to two weeks vacation for 1941, he said.

"Kroger's policy for many years has been to provide vacations with pay for its employees. Two years ago the length of service requirement was reduced so that every employee with as much as one year of service was included on the vacation list," he added.

Albert H. Morrill, president of the firm, recently sent descriptive booklets on Kroger operations and Cincinnati points of interest to all Kroger employees, inviting them to include a visit to Kroger's general offices in Cincinnati on their vacation trips. Here they will meet executives of the organization, and will have an opportunity to tour the Kroger Food Foundation food research laboratories, the Kroger factories and photo-developing plant.

After a similar invitation by Morrill last year, approximately 600 Kroger employees and their families visited the Cincinnati offices and plants.

Norfolk Dam Work Begins Construction of \$16,000,000 Project Underway

NORFOLK, Ark. —(AP)— Major T. S. Kern, U. S. Army engineer of the Little Rock district, told thousands of Missouri and Arkansas residents who had gathered Thursday to celebrate the beginning of construction of the \$16,000,000 Norfolk flood control dam, that the project was only the beginning in the White river valley development.

Governor Home Adkins, unable to attend, wired from Washington that the project marked a new era in Arkansas.

The governor said he had been in the Tennessee valley getting information on the TVA and asserted "we must take the offensive in securing power and proper rates by utilizing our water, coal and sulfur gas and every resource at our command."
